10 June 2026

Reference: P001221J

Dear Helen,

I am pleased to provide you with a letter confirming Marshall's' ongoing BES 6001 certification.

Marshall's current certificate (RS0008) remains valid through 09 January 2028. As part of Marshall's certificate maintenance, Marshall's is undergoing their first annual verification assessment.

During this period, Marshall's have acquired Marley. Marley had previously been certified to BES 6001, however, their certificate expired in May 2026. Marshall's AV1 certification will reflect these changes to scope and products. The updated certificate, therefore, shall certify the following sites and products as listed on pages 2-4.

Marshall's has provided evidence for their AV1 report, which I drafted in June 2026. The report is now pending BRE's independent review.

I thank you again for your responsiveness and patience as BRE continues this process. If you or any external stakeholders have any queries relating to this letter, please do not hesitate to contact me.

Yours Sincerely

Bailey Dinman
